The play is presented with such artistic strength by the company that the spectator is carried away, and yields timself up to the impulse of expressing a noisy approval and commendation. You are forced, even against your will, to

and act with the characters, make their joys and sorrows own. You are compelled to follow unconsciously the heroine, "Hazel Kirke," from her pastoral home, through her checkered wedded life, her wanderings and hope with her for her final forgiveness at the paternal hearth; and you rejoice when the eli-max is reached, and happiness follows all the painful miseries that at one time seemed to have overwhelmed her, and from which there appeared no release except in death. So much for the play. The cast was excellence itself. Mr. Couldock, the veteran actor, of the oldest and best school, as "Dunstan Kirke," the stern and iron-hearted father, gave a realistic interm first to last the sympathies of the audi ence with a power that was impossible to shake off. CITY AFFAIRS. Legislative Council Meeting-Report o the City Engineer on the Street Im-provements During the Next

ters of Interest.

Two Years-Other Mat-At the courthouse yesterday afternoon, the legislative council of the city met in called

session. The following named members were present: D. T. Porter, president; John Overton, jr., M. Burke, John Gunn, J. M. Goodbar, W. N. Brown.

The minutes of the previous meeting were read and approved, after which the following business was transacted: the Prizes opposite: that we, the undersigned, kept the record of the drawn numbers of the Twenty-sixth Drawing of IMPROVING HOWARD'S ROW PAVEMENTS. A communication from Ad Storm, super-intendent of the St. Louis and Vicksburg the Commonwealth Distribution Company, which took place in the city of Louisville, Ky., at Macau Anchor-line, was read. It asked that How-ard's Row, from Shelby street to the river, be placed in a condition suitable for busi-ness, both as to sidewalks and gaslights; also, for gas lamps on the landing, south of Union street. The communication was re-ferred to the city engineer to make a report Prize. No. 20 62511 as to the proposed work.

STREET PAVING OF THE FUTURE. The following communication from President Porter was referred to a committe of three, consisting of Messrs. Overton, Gunn and Goodbar. To the Honorable Legislative Council: I herewith transmit the statement made by the Taxing-District engineer, by my request, showing the length of streets that should be paved first and estimated amounts required to do the work. I would recommend that he statement be referred to a committee of three to examine and report back to this council, so that the council will be prepared to advertise for contracts for the work to commence as soon as the tax levy for 1880 and 1881 is made by the legislature, which I and 1881 is made by the legislature, which I hope will be done early in January next. This is an important matter and should have prompt attention, so that material for the work can be brought here by river and the work completed by the 1st of November, 1881. I am satisfied persons owning property on these streets would not only pay their taxes promptly, but would subscribe liberally to aid the prompt completion of the work.

ENGINEER MERIWETHER'S REPORT. statement showing a list of streets and an approximate estimate of the cost of paving the same. The streets named traverse the most thickly settled wards of the city, and meet, it is believed, in a greater degree the commercial wants of the place at this time than any of the other streets now improved. An examination of the work will show two classes of work:
First—Four and three-quarter miles of
Telford, covered with fine broken macadam,

Second—About two miles of block-stone pavement, placed where it is most required by the traffic of the city.

The statement is made for the information of your honorable body, that you may take such steps as may be deemed requisite in arranging for the paving of such streets or parts of streets as may be considered in the future by your honorable body. Respectfully, NILES MERIWETHER.
